Discharge Monitoring Report - Platforms Henry, Hillhouse and Habitat
NPDES Permit No. CAG280000

Dear Ms. Chew, Ms. Dettmer, Ms. Zaleski and Mr. Wall

This letter and the attachments constitute the above captioned Discharge Monitoring Reports (DMR) for the last quarter- August thru October, 2017

The attachments constitute this cover letter and the lists of Chemical Inventory, if any. During this reporting quarter, no chemicals were used at any of these 3 platforms for work over, completion or well treatment.

Dilution: The Following are the Dilution ratios for the reporting quarter

1) Platform Hillhouse-1073:1 2) Platform Habitat- No Discharge 3) Henry-N/A

Produced Water (002):

Produced water was discharged throughout this reporting quarter for platform Hillhouse. There was no exceedance for produced water during this reporting quarter. Platform Habitat is in shut down state, and hence no produced water discharge. However, there was some deck drain and sanitary discharge that have been reported in the NetDMRs. Platform Henry's produced water is commingled and discharged at Platform Hillhouse, and the monitoring requirements are included in platform Hillhouse' DMR.

Notes:

- Some of the Oil & Grease results were “Below Quantitation Limit” (BQL) where PQL was 5mg/L. However, for the sake of monthly average, we obtained calculated data from the lab and reported that in the DMRs.

I certify under penalty of law that this document and all attachments are prepared by me or under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Should you have any questions or require additional information, please contact me at (805) 535-2078.

Sincerely,

Jay Rao
